PROFILE

I am a passionate and highly motivated programmer concentrating on JavaScript and the MERN stack. I have built custom websites in the past as a freelance web developer, but am seeking to focus on more complex applications as part of a team.

PROJECTS (SEE PORTFOLIO FOR LIVE DEMOS)

TowerTracker

Enterprise application to locate cell towers, create maintenance orders, and run in-depth reports.

MERN Calendar

An event organizer/calendar built on the MERN stack that allows a user to create, edit and share single, multi-day, and recurring events.

Budget Tool

Web tool to calculate monthly income and expense percentages
